#### RESEARCH PROJECT DESIGN

We assist governments at all levels and not-for-profit organizations of all sizes with projects aimed at helping vulnerable groups thrive. We do this by working with stakeholders to design and implement projects and monitor and evaluate project outcomes to determine next steps.

### 02.

#### EVIDENCE-BASED RESEARCH

Using qualitative and quantitative methods, we conduct evidence-based research to support new and existing programs. We supplement collected data with the most recent and innovative literature and statistics related to the topic at hand.

### 03.

#### GRANT WRITING
